They are based out of Jacksonville, Florida and specialize in vivid, temporary and permanent murals, digital art and acrylic paintings. Their company and art is founded in love and they enjoy expressing it in all that they do. They refer to their work as the *Conscious Heart Movement*- a belief that choices should be guided by the wisdom of the heart in an attempt to create unity based in truth. The process of creating their work is a sacred experience, and they hope you can feel the love.
